

ORC-CONIPHS-V

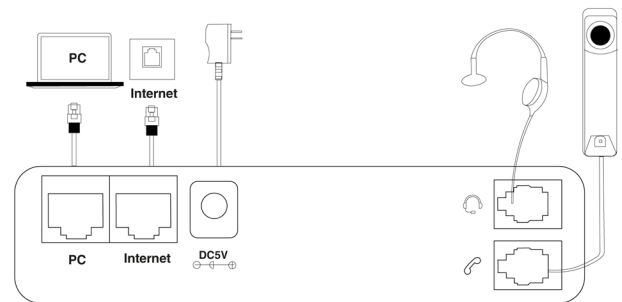

ITEM NO: 12535

The easy-to-use smart desk phone offers an enriched HD audio and video calling experience, making it an ideal choice for concierge and security applications. Designed for seamless integration with ORC-CON software, it also functions efficiently as a standalone audio-video desk phone.

This advanced device ensures crystal-clear communication with high-definition audio and video capabilities, enhancing the user experience in high-demand environments. The intuitive interface allows for effortless operation, ensuring that users can quickly and effectively manage calls and video interactions. Whether used in a bustling concierge desk or a vigilant security office, this smart desk phone delivers reliable performance and superior connectivity. Its compatibility with ORC-CON software further enhances its functionality, providing a comprehensive solution for modern communication needs in residential and commercial settings.
