

ORC-UM-R

ITEM NO: 12626

The Orcomm Unlock Module enhances security by enabling remote door release from the external panel. The ORC-UM-R intelligent relay facilitates trades access during pre-approved times. It features one-zone control options for gates, barriers, and electronic doors using our on-board 10A relays. Additionally, it offers a two-pole relay for extra functionalities as needed. This product meets the "Secure by Design" standards when used with ORC-E range panels.

SPECIFICATION

Size	113mm x 57mm x 33mm	Weight	0.1kg
Finish	Cream	Box Size	120mm x 63mm x 40mm
Box Weight	0.1kg	Box Finish	White

TECHNICAL INFORMATION

Power	<1W	Voltage	12V DC
Current	<100mA	Temperature	<60 °C
Humidity	10%-95% R.H	Relays	2
Encrypted	Yes	Compatible	ORC-E Range
Communication	RS485	Distance	400 Meters
Door Opening	10A Relay (COM, NO, NC)
