4" Touch Screen Door Entry

## User Manual v1.1

Please follow this user manual for the correct installation and testing, if there is any doubt please call our tech-support and customer centre.

The illustrations shown here are only used for reference, if there is any difference please take the actual product as standard product.

This manual and guide is designed for the product and technology stated on the front. And requires that the installation of the equipment follows the instructions given by the manufacturer and in compliance with the standards in force.

All the equipment must only be used for the purpose it was designed for.

All the products comply with the requirements of Directive 2006/95/EC as certified by the CE mark they carry.

Source To Site declines any responsibility for improper use of the apparatus, for any alterations made by others for any reason or for the use of non-original accessories or materials.

Do not route the riser wires in proximity to power supply cables (230/400V).

Cut off the power supply before carrying out any maintenance work.

For any Electrical devices Installation, mounting and assistance procedures must only be performed by specialised electricians.

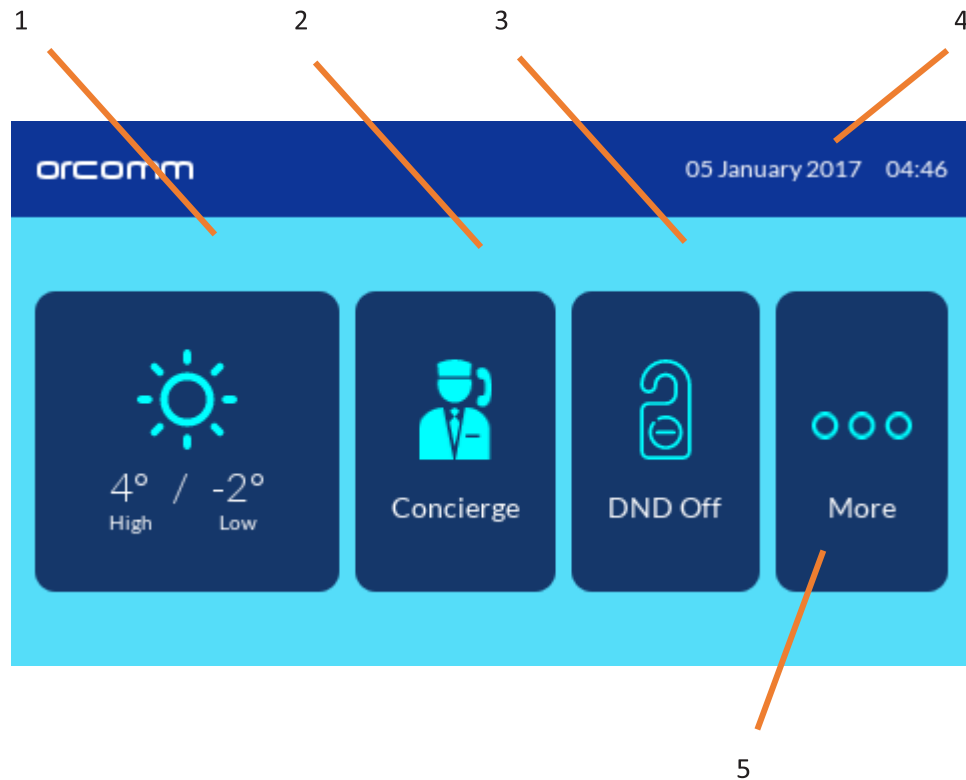

Please ensure that you seek advice and correct IP settings before connecting any equipment to an IP network to ensure there is conflicts or incompatibilities.
