

ORC-HC2-3A-RS485-WH

ITEM NO: 12588

The Orcomm HC2 RS485 Thermostat is engineered to manage your heating system both through smart technology and our smart home screens. It features a straightforward, one-touch temperature override with preset temperatures maintained within $\pm 1^{\circ}\text{C}$. Equipped with an internal sensor, it efficiently controls air temperatures. The thermostat is suitable for installation in a standard single electrical UK box or a European 60mm round box.

DIMENSION

SPECIFICATION

Size	86mm x 86mm x 15mm	Weight	0.2kg
Finish	White		

TECHNICAL INFORMATION

Power	<1W	Voltage	240V AC
Current	<250mA	Temperature	5 - 55° C
Degree Reading	+/- 1° C	Max Output	3A
Program Periods	5+2, 6+1 or 7 days	LCD	Yes
Backlit	Yes	LCD Colour	Blue
Communication	Modbus / RS485	Heating Type	240V AC - Boiler Heating

ADDITIONAL INFORMATION
